### PLANT AURA

from Cynthia Mosser Fine Art is inspired by the spirit of nature and the natural surroundings of the Pacific Northwest. Ideal for patient waiting areas and hospital corridors, the colorful painting is on acid-free museum board and measures 29-by-21 inches, or 41-by-33 inches when framed.

### LUMINOUS ART

by Eye Feast Art features site-specific custom designs and LED backlighting to function both as accent lighting and fine art. The multimedia design includes paint, latex, acrylic, elevated fused glass, and dimmable LEDs that can be hard-wired or plug-in ready. Designs range in size from small sconces to custom-sized wall panels and free-standing totems.

### INTERLOCKING-ROCK PANELS

from ModularArts are designed to be used in multiples to create a continuous, sculptural wall. The durable panels are composed of glass-reinforced cast rock with a Class A foam core and steel-reinforced joints that interlock to ensure accurate panel-to-panel alignment and joint stability. Panels measure 32-by-32-inches.
